Mission

To be the acknowledged source of information on the resale and reuse of surplus property for institutions of higher learning.

Goal

To provide innovative solutions for surplus property disposition, give appropriate information on current procedures, policies, rules and regulations, and support for successful surplus business operations.

About

The University Surplus Property Association (USPA) is a nonprofit professional association (501(c)3) dedicated to effectively managing surplus property.

The managers of surplus property contribute to the bottom line of their college or university, both directly and indirectly, by increasing revenue through sales of surplus property and reducing cost by satisfying property demands with property on hand.

The USPA provides its members with a network of surplus managers across the country. In addition to its membership, the association boasts a list of over 3,000 contracts in our field.

Annual Conference 2017

University of Pittsburgh

March 26-29, 2017

Why Attend

- Find out what your peers are doing and learn new industry trends
- Find opportunities for development and improvement
- Learn how to build a unique, dynamic program that meets demands and supports ever-changing environmental trends
- Hear about other revenue-generating opportunities
- Learn how partnering with your recycling program can increase sales
- Reflect on whether your surplus operation is on the “leading edge or bleeding edge”
